LES MILLS

CXWORX

Exercising muscles around the core, CXWORX™ provides the vital ingredient for a stronger body. A stronger core makes you better at all things you do, from everyday life to your favorite sports - it's the glue that holds everything together. All the moves in CXWORX have options, so it's challenging but achievable for your own level of fitness. During the 30-minute workout trained instructors guide you through correct technique as you work with resistance tubes and weight plates, as well as body weight exercises. You will also get into some hip, butt and lower back exercises.

LES MILLS

sprint

is a 30-minute High-Intensity Interval Training (HIIT) workout, using an indoor bike to

achieve fast results. It's a short, intense style of training where the thrill and motivation comes from pushing your physical and mental limits. A high intensity, low impact workout, it's scientifically proven to return rapid results. You combine bursts of intensity, where you work as hard as possible, with periods of rest that prepare you for the next effort. The payoff? You smash your fitness goals, fast.

LES MILLS

GRIT

Considered one of the quickest ways to take your fitness to the next level, the high-intensity interval training of a LES MILLS GRIT workout builds cardiovascular fitness and lean muscle while sending calorie burn through the roof. The idea is that you go as hard as you possibly can for a short time, rest and then do it again. The intense intervals, particularly the use of the recoveries, allow you to keep reaching your maximum training zone, which is where the results kick in.
